

For sustainable and connected buildings

eSMART is celebrating its 6th anniversary this year and is the most sold solution in Switzerland with 1450 equipped properties and more than 1200 apartments being delivered. Achieving this growth and leading position was possible thanks to an ever-expanding dynamic team of twenty or so employees.

The **eSMART solution** is a constantly evolving innovative product thanks to the creativity of our R&D team engineers. Their ingenuity has enabled them to develop a solution that can quickly adapt to changing markets, new technologies as well as client requirements.
